REV. DR. STICKLAND'S AMER—
ICAN FAMILY PILLS are undoubtedly the best vegstable compound ever discovered for the cure of Liver
Complaints, Jaundice, Piles, Coativeness, Dyspepsis, Saljow Complexion Sick Headache, Bitter Taste, Dropsy,
Kidney Affections, Gravel, Rheumailam, Internsitient Fover and Ague, Intheorax, Colds, &c. Being in strict accordsince with the unalterable laws of creative Providence, and
a knowledge of Anatomy and Physiology, the Doctor is
convinced that the same Aliwise Being has created in the
vegetable world a remedy for every disease that feeb is
heir to. Anatomy teaches that the human body contains
many important organs called glands, each of which is employed in secreting from the blood its own appropriate
faild, the chief of which is the Liver. Kidneys, Salivary and
Glandular bodies connected with the pores of the akin. The
Liver and Salivary Glands secrete from the blood those
failds that carry on the work of digestion, and thus promote
the healthy action of the bowels. The kidneys and skin secrete from the blood those deleterious impurities which, if
obstructed, will produce many diseases, and health be entirely impaired. Now, this vegetable compound attacks
the liver, simulates it to action, removes he diseases corrects the billous and digestive organs, causing the kidneys
to act, and opening the pures of the akin. Hence the "Parification of the Bood," whereby perfect health is restored.
For convincing proof of the above the Doctor requests a
permal of his pamphels, setting forth most fully the philosophy of their action, with full directions and certificates of
upparalleled cures. Office 153 Fultons. I. New York, and
sold by venders of medicine generally.

American and Foreign Bible Society. The Thirteenth Annual Meeting of this Society was belt at the Oliver Street Church on yesterday morning at 16 o'clock. The proceedings were opened by singing the 19th Pasim, and with prayer by the Rev. Mr. Ben-

ing the 18th Pasim, and with prayer by the Rev. Mr. Benneit

Rev. Dr. Whilsi, of Brooklyn, read the opening address, showing that the receipts of the present year
exceeded those of the past year by over \$1,000. The present English version of the Bible was the one which the Soclesy meant to circuiste. It had some errors but the Soclesy would routinue to circuiste it until the concentrated
wisdom of the Churches would present a better version.
Errors were inseparable from all things human. The address adversed in detail to the successful operations of the
Society, after which the Society read the Treasurer's
report. Total receipts, \$44,333. Expenditures, \$35728 52. Balance on hand at the commencement of last
year \$355 55.

The report of the Society was then read by the Rev. S.
S. Cuttins, Corresponding Secretary. The local smounts of appropriations for Foreign Missions for the past year it appeared was \$25,077. The Society had done vast service to Germany. They had issued there during the pastyess 29,045 Bibles, which, when added to 2.564 which had been given to the Edinburgh Society, makes a total of the less than 51,509. Some 10,800 copies of the Danish version of the New Testament were also called for his new thick it was hoped would be furnished by the Society.

The Eighteenth Anniversary of the New York Magdalen Benevolent Society was celebrated in the Lecture Room of the Mercer-st. Church last evening The proceedings were opened by the ancience singing the Elisthymu, after which a prayer was offered up by Rev.

own present convenience and may afterwards and them in securing a comformable support. Enfeccied chasin and the shalls of Indolence, peculiar to this class of Individuals, acarcely admit of their adding materially to the tocome of the society.

We would not omit to express our grateful acknowledgments to Dr. Edward S. Finlay of Yorkville, for his unremitting and gratuitous professional services at the anylum during the past year.

Of the Afty-right who have been placed under our supervision, seventeen have been dismissed at their own request, three of whom, we fear, are incorrigible—fourteen have been restored to reputation families, and two have deceased, leaving satisfactors evidence of their conversion.

Among the signal blessings of a beolgoant Providence, we are constrained to notice the special outpourings of the Divine Spirit upon the inuntes, which occurred to February last. On the last Sabbath in that month during morthly service, several individuals appeared unusually serious, and desired a special remembrance at the throne of grace. At the close of the services an opportunity for personal conversation with the chaptain was offered to those who desired it. Seven promptly enthraced the offer, and tearfully sought direction in the way of everlaning life. It was a most effecting apectacle, and hard ladesd must be the heart that could have witnessed it without emetion. In the afternion the exercises were, if possible, still more solemn, and in compilance with the desire of the immiss, extra services were arranged for the ensuing week. Accordingly, we were then favored with the preaching of several devoted clergymen from the City, whose ministrations were attended with a bisessing—There was no outburst of grief—no excessive emotion exhibited, for it was the with small voice of the spirit which spoke to the amignate services were continued with unshabled interest, and redeved more impressive by the decase of one of the luminate, whose case is recorded in the sand, yet there is hope, and that he seed in the

Colonization-The Gas Monopoly-The Havre de Grace Bank Trizls-Deaths-Engine for New-York-Loce Foco Troubles-Reform Convention-Outrage.
Correspondence of The Tribune.

SALTIMORE, Thursday, May 8-P.M. The bark " Liberia," of this port, belonging to the Maryland Colonization Society, is expected to sail hence for Monrovia in about three weeks, with 130 emigrant passengers. A number of them are from Reading and Columbia. Pa. others from Maryland and Virginia. Beside the two agents sent out by the free colored people of Dorchester County, to examine the country, there are soveral other intelligent colored men going for the ame object, and I have no doubt that if they return with favorable reports, a very large number of emigrants will go out another assaon. Rev. John Beys, who resided for many years on the Liberts Coast, is now traveling through the State at the expense of the Co entration Society, and beside collecting a considerable amount of funds in aid of the course, has been instrumental in inducing a large number of colored persons to emigrate.

The old Gas Monopoly of Baltimore is sore troubled at the idea of the Council's granting the privilege to the Waiter Gas Company, to open the streets and lay pipes for the introduction of their cheap light. They have used every means to defeat the ordinance, but the First Branch have passed it by a vote of 15 to 5. In order to Induce the Corporation to have nothing to do with the waiter gas, (which they assert is a positive failure, a though using every means to defeat the introduction of the failure.) The old Company have offered to light the city lamps at a price as low as gas is furbished in any city of the Union. They have also reduced the price to all other communers. The opposition to this monopoly has done some good at any rate. to sail hence for Monrovia in about three weeks,

as low as gas is diriumed in any city of the Union. They have also reduced the price to all other consumers. The opposition to this monopoly has done some good as any rate.

The trial of Erra Coiller, the cashler, and the New York Directors of the size exploded havre de Grace Bank has been assigned for the leth of next month, to come off before that ford County Court as Reil Att, percentportly. The indictiments charge them with robbery of its specie, &c., and they will be presented by the best legal talent in the State. Several parties indicted, now in New-York, are not expected to be present, having a disincilination to run the risk of the result.

Thomas W. Garner, one of the oldest members of the thearircal profession in this city died a few days since in poverty and want. Magdaine Strechcomb, aged 90 years, and for 71 years a member of the M. E. church, died in the county on Tuesday. She was one of the first members of the Wesleyan Methodists in this State.

Regers the machinist, is unified gone of the handsomest engines I have seen lately, for a company in your city. As a specimes of Baltimore mechanism it will compare favorably with any in the New York Fire Department.

A great struggle is going on among the "unterrified Democracy" for the candidates for Shestiff and Congress, this Fall. The secret wire working is anusing and will lead to a general "blow up" which must heare their defeat. A system of packing bas already commenced, and I could name several who siready deem themselves certain of the nomitrations. The "Young Democracy" are getting disquisted, however, at the dictation of old party backs, and if certain nominations are made, they will do as they did at the last Mayor's election—not vote at all or support the Whig nominees, and pat down the petry rulers of the party. The prospects of the Whigs never was better.

The Reform Convention has determined to adjourn on the 12th limit. A universal "amen," will greet such an act throughout the State.

BOARD OF SUFERIVISORS.—This body met in the Common Council Chamber, City Hall, on Friday afternoon—Dr. Berry in the Coair.

A communication from Messrs. King & Kellum. Architects. on the subject of the building of the new Fasileatiary was read. It showed that the work is going on, and that most of it is done by the prisoners, and recommends a contract for the stone work.

Mr. Bergen offered a resolution, which was adopted, that a committee of these be appointed to superinteed the building of the new Fantentiary, and be substricted to continue the erection of the stone walls, employing masons and blasters; and that the expenses be paid on the order of the Committee by the County Treasurer when dulys vertised.

The Chairman read a communication from A. B. Hodger, Sheriff, setting forth a nulsance which exists in the rear of the County Jail—that persons are in the habit of assembling on the hights and sheds rear of the female prison, converse with the immates, uses profuse and indecent lenguage, and pass fluor to the prisoner. The communication also refers to the recommendation of the Grand Jury, on a recent occasion, to have a nathing apparatus placed in each of the prisons, mais and female, and sake the favorable consideration of the subject by the Board. A communication from the Superintendents of the Poor was then read, by which it appears they have paid on account of the Penticentary since is of Anguat, 1859, 2834 97 Salance on hand at that date.

On THE STRIKE.—The laborers generally, who recently made a strike for higher wages, are still holding out, and the master masors are as determined not to pay the advance demanded. Many buildings consequently remain in the same unfinished state in which they were left, and the laborers are idly perambulating the stroots.
